New bin 254d(ir)

Here is new release from BL.Pansat 2300 bin modified for oldtimer lifetime.If you have full panel then you need boot 04 modified by Moi.

File is

here:<http://www.hostclip.com/download.php?file=d51732513dde4f7bafc60c4a5ce36622>

Re: New bin 254d(ir)

Mile

Will not get a chance to try this till later this weekend, does the front panel display work with this release, or is it like 2.53 where it is blank.

Have a good weekend

had the same issue, plus rebooting every ten minutes. will test this one later.

Now: Tested on Lifetime Full Panel with Boot 04 mod, and HalfPanel:

NO panel lites as in the previous version.

Is this panel lites an issue with the Pansat2300a by BlackList, or/and with the Lifetime mod ?

Re: New bin 254d(ir)

GET SOME

This is the bin file, that is why it says .bin at the end.

No need for winzip, it is not compressed.

exactly, BL has not even fixed it from versions ago, as if he did not know. Will blame it on the clones. On the other hand, BL will say that he is supporting Pansat, when all they are really doing is trying to dump their stock.

Re: New bin 254d(ir)

Thanks, but I get knight rider happening after I load this bin onto my half panel Lifetime.

I have correct the knight rider problem already.

Any suggestions?

cant recall, who ?

how can the panel thingy be fixed, start a protest at the BL/Pansat site.

Re: New bin 254d(ir)

Everything works fine except I lost display :(
It shows dots while booting and then front panel is dark. Channels work but it is kinda of confusing when browsing or turning off & on.
Lost everything 5 minutes later.

Re: New bin 254d(ir)

Does Bev PPv's work with this fix
appreciate the effort.
